Matina Gravahan, Davao City, Davao Del Sur, 8000 Philippines

OBJECTIVE

Motivated React Native Developer with experience building and maintaining mobile applications using React Native, Expo, and TypeScript. Experienced in developing features, improving UI/UX, integrating APIs, fixing bugs, and supporting iOS and Android app releases. Looking to contribute my skills to a team where I can build reliable and user-friendly mobile applications while continuing to grow as a developer.

-

WORK EXPERIENCES

Infini Solution – Davao City

July 2023 – September 2023

Front-end Mobile Developer – On Job Training

Developed a social media app where I've taken inspiration from Twitter, featuring a user-friendly design reminiscent of your favorite short-form blogging platform.

PhVirtual Team – Dubai

December 2023 – August 2024

Mobile Front-end Developer – React native Expo TypeScript

- **iMotor: Car Listing Mobile Application** – I developed a versatile mobile application for listing and exploring various vehicles, including cars, motorcycles, trucks, and boats, all based in Dubai. This app provides a user-friendly platform for both buyers and sellers to interact and conduct transactions seamlessly.
- **iWeft : Booking Laundry Mobile Application** – Developed a comprehensive mobile application for booking laundry services in Dubai. This app streamlines the process of scheduling, managing, and tracking laundry services for users, providing a convenient solution for both customers and laundry service providers using JavaScript, React Native, and Node.js. Implemented RESTful APIs and integrated with MongoDB databases.

Awork A/S company – Denmark

August 2024 – September 2026

Mobile Front-end Developer – React native Expo TypeScript

- **CitizenOne: Mobile Application for Citizen Record System** – Developed a fully functional mobile application for a citizen record system in Denmark. This digital solution allows for electronic registration and secure storage of all relevant data on a user-friendly platform. The system features a central database, enabling authorized users to access critical information quickly and easily without dealing with physical documents or scattered digital files.
- **Obiyeen: Manage SEO, GDPR, cookies and marketing in one powerful business platform.** – Obiyeen brings together essential business tools in one platform. Manage cookies, monitor SEO rankings, analyze websites and track performance across your digital channels – all from your mobile device.
